

Composition : Adapalene 1 mg + Benzoyl Peroxide 25 mg.

Indications : It is indicated for the topical treatment of Acne Vulgaris.

Dosage and administration : A thin film is applied to affected areas of the face and/or trunk once daily after washing. Or, as directed by the registered physician.

Side effects : The most commonly reported adverse reactions are dry skin, contact dermatitis, application site burning & skin irritation. Erythema, scaling, dryness, stinging may occur.

Contraindication : It is contraindicated in patients known to have hypersensitivity to the drug or any of its components.

Pregnancy and lactation : Pregnancy Category C. It should be used during pregnancy only if the potential benefit justifies the risk to the fetus. It is not known whether adapalene or benzoyl peroxide is excreted in human milk. Caution should be exercised when it is administered to a nursing woman.

Precaution : Exposure to sunlight, including sunlamps, should be avoided or minimized during the use.

Drug interactions : Concomitant topical acne therapy should be used with caution because a possible cumulative irritancy effect may occur, especially with the use of peeling, desquamating, or abrasive agents. No formal drug-drug interaction studies were conducted.
