

Ferozi Capsule

Composition : Ferozi timed release capsule is a combination of blended pellets of dried Ferrous Sulphate 150mg, Folic Acid 500mcg & Zinc Sulphate Monohydrate 61.8mg (Eq to 22.5mg zinc).

Indications : Ferozi is indicated for the treatment and prophylaxis of iron, folic acid and zinc deficiency, specially during pregnancy and lactation.

Contraindication : Hypersensitivity to any component of the drug.

Dosage & Administration : 1 capsule daily throughout pregnancy and lactation or as directed by the physician.

Adverse effects : Dark stools are usual during iron therapy and nausea and other symptoms of gastro-intestinal irritation, such as anorexia, vomiting, constipation and diarrhoea.

Precautions : Absorption of iron may be impaired by penicillamine and by antacids. Such potential interactions can be reduced by separating administration of each product by several hours.

Packing :

Ferozi : 6 x 10's capsules in blister pack.
