

Composition: Micoderm-HC Cream : Miconazole Nitrate 2% & Hydrocortisone 1% .

Indications : For the topical treatment of topical inflamed dermatoses where infection by susceptible organisms and inflammation coexist e.g. intertrigo and infected eczema. For moist or dry eczema or dermatitis including atopic eczema, primary irritant or contact allergic eczema or seborrhoeic eczema including that associated with acne. Also for intertriginous eczema including inflammatory intertrigo, perinial and genital dermatitis. Organisms which are susceptible to miconazole are dermatophytes and pathogenic yeasts. (e.g. Candida spp.). Also many gram-positive bacteria including many strains of streptococcus and staphylococcus.

Dosage and administration : It should be applied topically to the affected area two or three times daily. The same dosage applies to both adults & children. In infants, long term continuous topical corticosteroid therapy should be avoided. Occlusive dressing is usually only necessary in the case of nail lesions. Or, as directed by the registered physician.

Side effects : Rarely local sensitivity may occur. Topically applied corticosteroids can be absorbed in sufficient amounts to produce systemic effects.

Contraindication : It should not be used in patients who are hypersensitive to any of the ingredients. It should not be used in tubercular or viral infections of the skin or those caused by gram-negative bacteria.

Precaution : It should be used with caution when applied to extensive

Micoderm-HC Cream

surface areas or under occlusive dressings including baby napkins. Application to extensive surface areas of the face should be avoided. In infants long term continuous therapy should be avoided. Adrenal suppression can occur even without occlusion.

Drug Interactions : Amphotericin antagonizes effect of Miconazole.

Use in pregnancy and lactation : Administration of corticosteroids to pregnant animal can cause abnormalities of fetal development. Topical steroids should not be extensively used in pregnancy.

Packing : Micoderm-HC Cream: 10 gm in a tube.
