Description : Hemosaf is a versatile polypharmaceutical herbal medicine prepared with valuable natural herbs that cleanses entire system of the body. The unique mixing of all the valuable medicinal plants gives the optimum concentration of important vitamins, elements like Fe, Ca, Zn, Mg, Na, Mn, Ni, Cu, Al, Ba etc. for protection of different organs, maintenance vital function of the body and the prevention of diseases.

Hemosaf inhibits the growth of Bacteria and Fungi. Hemosaf is useful as a diuretic, preventing problems arising from change of season. It checks nose bleeding, cures constipation, prevents burning sensation during urination, relieves general depression, improves complexion & helps you to stay slim and smart.

Be beautiful, slim & smart. Take Hemosaf for at least three months and you'll get glowing skin forever. Use anything else and you'll just be scratching the surface. Because only Hemosaf can reach deep inside the blood and remove the impurities that causes pimples, acne, blemishes and skin eruptions from the root. It also helps to reduce excess weight.

Indication : Acne vulgaris, pimples and boils, skin eruptions, impurities in blood, chronic & temporary constipation, general lassitude, heat rash and itching, epistaxis, measles, burning sensation during urination and also as an immunostimulant.

Dosage : Adult : 2-4 teaspoonfuls 1-2 times daily.

Children : $\frac{1}{2}$ -1 teaspoonful or as prescribed by the physician. Generally one dose of Hemosaf should be taken in the evening with a cup of milk, water or fruit juice. In severe condition two additional doses may be taken-one in the morning and another at bed time. In case of constipation Hemosaf should be taken with hot milk/ water for one month. Or, as directed by the registered physician.

Presentation : 100ml, 225ml and 450ml in PET bottle.
