Description:

Biotin is an essential vitamin that is also known as vitamin H. It is involved in vital physiological function like fatty acid synthesis, amino acid catabolism and gluconeogenesis. It acts as a cofactor in the enzymatic carboxylation of pyruvate and acetyl-CoA. Biotin influences the growth and differentiation of epidermal cells and is therefore important for the formation and renewal of the skin, hair and nails. It functions as a coenzyme for mitochondrial carboxylases in hair roots and improves the keratin structure. Biotin deficiency may result in hair loss and a variety of systemic symptoms such as dermatitis and aciduria. Biotin is one of the most prescribed nutritional supplements for any kind of hair loss.

Indications:

This Capsule indicated for Hair loss, Weak, brittle, splitting or soft nails, Eczema & dermatitis.

Dosage & Administration:

Biotin dose varies depending on disease condition and age group. Generally 1-3 capsules per day. Or, as directed by the registered physician.

Side effects:

Well tolerated in recommended dose. No biotin toxicity has been reported in individuals supplemented with as much as 200 mg orally.

Contraindications:

Biotin is contraindicated in patients with known hypersensitivity to any component of this medicine.

Use in Pregnancy and lactation:

There is no data available.
